

CREATE AND CONFIGURE IBM CLOUD SERVICES

Date	10 November 2022
Team ID	PNT2022TMID20612
Project Name	Hazardous Area Monitoring for Industrial Plant powered by IoT

Cloudbant DB

The screenshot shows the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo and a search bar. Below the navigation bar, the main content area is titled "Dashboard" and features a "For you" section. This section displays a grid of starter guides, each with a title, description, and a "Getting started" button. The guides include:

- Build**: Explore IBM Cloud with this selection of easy starter tutorials and services.
- Build a web app with Watson Speech to Text**: Deploy a conversational interface compatible with any application, device, or channel. (15 min)
- Get started with Watson Discovery**: Get up to speed on Watson Discovery with step-by-step tutorials, deep-dive videos, and complete examples of working code. (2 hr)
- Build a Virtual Private Cloud (VPC)**: Upgrade to a paid account to create your own protected space in the IBM Cloud. (7 min)
- Build and deploy Node.js apps**: Go from zero to production in minutes with your Node.js applications, integrate with Watson and other services, scale your microservices. (15 min)
- Get started with Watson Studio**: Get started with Watson Studio. (15 min)

At the bottom of the dashboard, there's a "News" section with a "View all" link. The overall layout is clean and modern, with a focus on providing easy access to starter guides and resources.
